Background: Current vehicle and vessel title and registration statutes are codified in various chapters of law and are often difficult to find and understand. Additionally, corresponding vehicle tax and fee statutes, including revenue distribution statutes, are also challenging for the reader to follow. As such, the 2007-2009 biennial transportation budget directed the Department of Licensing (DOL) to submit to the Legislature draft legislation that "streamlines title and registration statutes to specifically address apparent conflicts, fee distribution, and other relevant issues that are revenue neutral and which do not change legislative policy."

The bill draft was submitted by DOL in 2009 and was subsequently reviewed by combined staffs of the Senate and House Transportation Committees.

Summary of Bill: Numerous vehicle and vessel title and registration statutes, including applicable tax and fee statutes, are streamlined and reorganized, and written in plain language so as to assist the reader. The bill is revenue and policy neutral, with two exceptions: (1) the
